## CUSTOM PACKAGE

Create your own package from our comprehensive wine selection and nominate the time frame for which you wish the service of these beverages. We can then determine a fixed price for you. Alternatively, advise us of your budget and desired timing and we can suggest beverage options.

## ON CONSUMPTION

Nominate a limited selection of beverages prior to your function. There are occasions when beverages by consumption are not applicable and a package needs to be chosen. Minimum spends may apply.

## INITIAL BEVERAGE PACKAGE

This tailor made option may include 1 x bottle of white wine, 1 x bottle of red wine, 1 x jug of beer and 1 x jug of soft drink on each table upon your guests arrival. All other beverages can then be charged on a consumption basis, where necessary to your pre-determined value OR guests can purchase their drinks with cash payment directly at the bar. Please note a surcharge or minimum spend may apply for limited packages - dependant on the time duration of your event. Cash and carry service is not available.

## CASH BAR

Guests can purchase their own beverage from the bar. Subsidised beverages are available in function rooms. Your guests pay an agreed amount for specified drinks, the remaining cost will be charged to your account.
